FEBRUARY 2024

PMOPA Flight Data Monitoring Program Launched

PMOPA has partnered with Fuzion Safety, opening up participation in our Flight Data Monitoring Program to the entire Piper PA-46 community. More participation will lead to more valuable insights and learnings to enhance the safety of our fleet. Your participation is welcome and highly encouraged!

Did You Tune into PMOPA's Recent Webinars? If Not, Watch the Recordings

January: Aeromedical Update

Dr. Keith Roxo, Operations Director for WingmanMed, presented how PMOPA members can prepare for their FAA medicals to ensure the best possible outcome. The webinar covered the purpose of the FAA medical exam, how to fill out the FAA's MedXPress, the importance of proper (from the FAA's perspective) medical documentation, and preparing for your medical exam before going to your AME. Dr. Roxo also reviewed the process to obtain and retain BasicMed.

Quick Reference Handbooks for
the PA46

Mark Spitzer, CFI

February: Get to Know PMOPA's Newest Member Resource: Quick Reference Handbooks

Mark Spitzer, CFI, member of PMOPA's Safety Committee, presented your newest PMOPA member benefit - the Quick Reference Handbooks (QRH). Designed for use in emergency or abnormal situations, the QRH can be an effective tool. Watching this webinar recording, you will learn how to access these new resources, and how to utilize the one for your PA-46, in the event of an emergency situation.

From PMOPA Magazine

Safety in Avionics

If you haven't yet read the January/February issue of PMOPA Magazine, check it out today. One of the feature stories in our current issue, written by PMOPA Board Member, Steve Nunn from Maxcraft Avionics Ltd., focuses on Safety in Avionics. *"Avionics has advanced so much since our mighty PA-46 was conceived in the early 1980s and we are fortunate to fly such a great airframe, and most often updated with modern capabilities. Future articles will talk about new technology coming on stream, but the purpose of this article is to remind us all how we can use our current avionics technology to keep us safe."* Steve explores this topic in-depth, including:

- What is your personal Minimum Equipment List?

- Legacy vs. Modern Avionics?
- Do You Know Your Systems Failure Modes?
- Situational Awareness, and
- Personal Electronic Device (PED) Dependency

This current issue, and all past issues, are available on the [PMOPA website](#).

PMOPA's "Piper Homecoming" March 8-9

PMOPA's "Piper Homecoming" East Coast Regional Event is almost sold out! If you are planning to attend, register today to secure your spot. The event kicks off Friday afternoon, March 8, with a tour of the Piper Aircraft factory, and continues on Saturday with a suite of timely education sessions.
